

WATERTIGHT · Swivel-mounted version
IP65 Recessed downlights

OUTDOOR

OUTDOOR

IP65 Recessed downlights

Watertight

- Recessed ceiling-mounted downlights with symmetrical light distribution.
- Protection rating against dust and moisture: complete IP65.
- Protection rating for resistance to harmful mechanical impacts: IK07.
- Tilt version, adjustable to 20° and 180° rotation.
- High-purity aluminium reflectors. Large range of reflectors to obtain specific photometric results.
- Aluminium body treated against corrosion and coated with polyester powder.
- 5mm tempered protection glass clear as standard, other finishes under request.
- Polycarbonate diffuser as option to get IK10 protection degree.
- Exterior screws and trim made of 316L stainless steel marine grade.
- Optional supply of 304 stainless steel vandal-resistant screws.
- Temperature resistant silicone rubber gasket.
- Anti-condensation device.
- Remote driver included. Electrical standard options for the driver: DALI/ DSI.
- Passive temperature management: heat dissipation via aluminium heat-sink.
- Mounted to the ceiling by three fixing points.

Suggested applications: porches, shopping centres, leisure areas, car parks, service stations, industrial facilities, outdoor ceilings in high humidity areas, or interior spaces that require low-maintenance. Areas where a point of interest is to be highlighted.

STAINLESS STEEL 316L Marine Grade
Available for: Watertight, Watertight Shallow, Watertight SQ, Dot, Lotus, Terra, Terra SQ, Victoria and Lithos.

C5-M (Marine) COATING
Special coating for environments with very high corrosivity. Areas near to the coast and spaces with high salinity.

Other RAL colors or product finishes are available upon request.

Bespoke solutions

If we don't
already have it,
we create it

The engineer from our technical team and the adaptability of our installations enable us to study, design and manufacture custom lighting systems based on the requirements and needs of each project.

Our **installations** are fully equipped with the necessary resources and the best **specialised professionals** to take on any custom order. Every project is painstakingly studied by our **technical team**, involving all stages of the creative and productive process: conceptualisation and **design of our products**; 3D modelling; prototype manufacture; and successful final production of the new product.

We develop **custom products** based on the requirements and needs of each project, and do so in partnership with everyone involved in the lighting project (lighting designers, architects and engineers). We always **adapt** to the needs of the project, manufacturing a new product from the ground up based on a simple functional description or working from sketches provided by a customer or external designer.

Furthermore, we can make minor modifications to products that already exist or create entirely new ones based on your design criteria.

5 years guarantee

Total quality,
integral guarantee.

Quality lighting can only be created from quality luminaires. That's why ROVASI has always maintained a commitment to only offering premium products for our lighting solutions.

We only work with the best components. This enables us to offer a total guarantee that all the luminaires we design and manufacture meet the very highest quality standards and strictly comply with current regulations.

The quality of our products is translated into security and peace of mind once the project has been completed.

Because we want to share and transmit the benefits of this quality commitment with all our customers, all our range has a guarantee for 5 years.
